the bill, I think that the liquore industry is the most heavily licensed and the closest supervised of any industry that we have here in the state of Nebraska. I think that these customers deserve some consideration. These license holders deserve some consideration and in my particular area there is no problem, so I really shouldn't have a particular interest in this but I think that the license holders should be protected from the supermarket who uses some of these as leaders as a means of getting people in there. He could afford to take a loss on it and make it up in other volume businesses. I think that a legitimate dealer needs some consideration here and I do plan to support the bill.
